PRODUCT PACK

EasyGate SPT

Within this product pack, you will find renders, drawings, technical specifications and technical dimensions of the above product.

Protecting your space.
Powering your business.

Why choose an EasyGate Speedgate?

Our EasyGate Speedgates offer the ultimate standard of both protection and elegance. Whether seamlessly blending in with your building's surroundings or making a bold statement, our gates enhance any reception area or office space, adapting to your design vision without compromise. With advanced tailgating capabilities and anti-climb sensors, they offer a secure solution for managing the flow of people in high-throughput areas, adapting to your ever-changing access needs. Their slimline and sleek design provides a modern entrance experience that combats overcrowding without compromising on safety: a smooth experience for users, a secure experience for you.

Ideal for...

Your considerations

EasyGate Speedgates provide both security and style with high operational speeds and complete access control. They guarantee user safety and secure areas during peak times and high-traffic scenarios. Efficiently engineered, they can be installed side by side or alongside turnstiles or entrance gates to optimise traffic flow for busy buildings. These speed gates have a minimal design that, when integrated with a visitor management system, provides an effective layer of security suitable for various working environments.

Fine-tuned to your needs

Our team provides customised solutions to meet your security and aesthetic needs. Our EasyGate Speedgates offer slim and stylish designs that blend with any architectural setting and a range of finishes to match your surroundings. When connected to your visitor management system, light guidance, adjustable glass wing heights, and anti-vault detection enhance security and user experience.

Benefits to your business

- High-throughput security
- Anti-tailgating prevention
- Climb-over prevention
- Aesthetic secure line
- High integration capability
- Integrates with most access control
- Highly customisable

Benefits to users

- Fast and secure access
- Ability to utilise biometrics access
- Intuitive to use
- Aesthetically pleasing
- Adds a feeling of safety
- Wheelchair access EA

Easygate SPT G - R

Available with round (G) or square (R) cabinet design, the SPT G and R Easygates offer a solid yet subtle deterrent for your secure areas. These gates effectively handle high-density traffic while ensuring robust security, featuring anti-climb detection, a hardened tooth lock brake, and a rapid barrier opening time of 0.5 seconds.

Business benefits

- ✓ Anti-tailgating
- ✓ Climb-over detection
- ✓ Patented Magnetic Direct Drive
- ✓ MCBF 25 million cycles
- ✓ 650N holding force

Access Control	●	EasyScan

“The speed gates play an important role in enabling the flow of people whilst maintaining the security of our colleagues and the building. With such a historic reception area it was critical that the gates complemented the aesthetics of the restored interior. We are delighted with the end result which delivers both security and aesthetics to great effect with the speed gates.”
