

MEESONS

RANGE BROCHURE

Bar Turnstiles

Easily installed, Bar Turnstiles offer a reliable layer of motorised protection for your premises. Their capacity to handle high traffic while restricting unauthorised access makes them an optimal choice for adding a layer of security in areas with limited space.

Why choose Meesons?

Since 1864, we have delivered entrance and access security solutions for forward-looking organisations seeking a building entrance solution adapted to their day-to-day operations. Today, we provide superior operational effectiveness, better, simpler customer experiences, and the ability to scale easily. We work with every customer to create an entrance control solution that meets their organisations' requirements.

Now, with a long-established nationwide and international presence, we are proud to be trusted by many prestigious companies for our market-leading solutions installed in iconic buildings and locations.

What we do

Identify how best to protect your space, people and assets.

The company endorses a layered security approach and collaborates with outstanding manufacturing partners to provide physical security for various settings. Business managers work with architects and security consultants to ensure the right balance between aesthetics and protection for clients.

Improve end-user experiences by unifying physical security with data.

Establishing lasting relationships with clients allows for a deeper understanding of their needs, including product usability, access control integration, and management software connectivity. Combining technology and physical security can enhance the functionality of smart buildings.

Modernise your access security faster, with greater confidence.

The focus on empowering change within physical security has led to product innovation, including the largest number of LPS 1175: Issue 8 approved products and the world's only high-security revolving door approved to LPS 1175: Issue 8.

Service

Meesons is dedicated to ensuring the longevity of your investments, which is why all products automatically come with a 12-month warranty. We recommend an aftercare service plan that includes regular inspections, maintenance, and repairs to keep your system running smoothly, safely, and efficiently.

One plan. Made simple

Our knowledge of environmental factors, usage, wear and tear and the impact on entrance performance emphasizes the importance of maintenance and protection. While our products are designed to endure the test of time, we acknowledge the necessity of regular servicing and upkeep to ensure uninterrupted use.

We offer one simple Service Plan, which is customisable. With bolt-on features, you can create a plan to suit your business needs.

Why choose a Bar Turnstile?

Our motor-driven Bar Turnstiles offer a secure and reliable solution for safeguarding your premises. Their space-efficient cabinet design and easy installation process make them ideal for preventing unauthorised access in compact spaces. Equipped with electronic crawl-under and climb-over detection, they eliminate threats of tailgating, ensuring a high level of security even in high-throughput areas. Our Bar Turnstiles enable swift, bi-directional transit, featuring a silent motor drive and an inbuilt Go-Call feature that visually signals authorised access to users by rotating the turnstile head forward slightly. This creates a comfortable and easy-to-follow entrance experience for all users. With a variety of finishes for both internal and external applications, our Bar Turnstiles provide a reliable entrance solution suitable for a range of secure facilities.

Ideal for...

Your considerations

When seeking to upgrade your secure spaces, Bar Turnstiles are ideal for increasing security in space-limited areas with high throughput. This range provides a reliable layer of protection with an easy installation process and a silent motor drive that minimises disruptions. Whether securing stadiums, gyms, leisure facilities, or temporary installations, Bar Turnstiles offer a simple yet effective solution for elevated security measures.

Fine-tuned to your needs

Due to their minimal footprint, this range provides space-saving entrance solutions that work to level up your secure line. Available for both indoor and outdoor installations, our range offers a broad spectrum of accessories and customisations to facilitate access for any type of user.

Benefits to your business

- Provides effective access control for areas with limited space
- Improves traffic management in high throughput areas with quick, bi-directional transit
- Demands minimal maintenance to uphold long-lasting secure standards
- Suitable for various environments, including temporary installations

Benefits to users

- Enhances user satisfaction by creating a smooth and simple entrance experience
- Allows for a range of access needs including wheelchair access
- Maintains a sense of safety and security in busy environments

Bar Turnstiles

BAR EK

The Bar EK is a compact and classic tripod turnstile ideal for installations with limited space and high throughput requirements. This reliable turnstile automatically adapts to the rotation speed of the user with an emergency drop arm to allow free passage, enabling safe and comfortable transit. Available for wall mounting and with a high-quality durable finish, the Bar EK provides a secure access solution suited for internal and external applications.
